PROFESSIONAL SUMMARY

Aspiring Software Engineer with hands-on experience building full-stack web applications and backend systems using Java, Spring Boot, React.js, Node.js, and MongoDB. Solid foundation in REST API development, object-oriented programming, and SQL, with hands-on experience delivering secure and functional software solutions through academic projects.

TECHNICAL SKILLS

Programming Languages: Java, C, Python

Web Technologies: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend & Database: Spring Boot, Node.js, Express.js, REST APIs, SQL, MySQL, MongoDB

Networking & Security: TCP/IP, PCAP, Deep Packet Inspection (DPI), Network Traffic Analysis, Flow Analysis, Threat Detection

Cloud & Developer Tools: Git, GitHub, Maven, JUnit, Postman, AWS (EC2, S3, IAM)

Core CS Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

PROJECTS

SmartNet – Intelligent Network Traffic Analysis and Threat Detection Platform | [GitHub](#)

July 2026

Java | Spring Boot | Maven | PCAP | TCP/IP | REST APIs | JSON | JUnit | Git | GitHub

- Built a network traffic analysis platform that parses PCAP files and decodes protocols (Ethernet, IPv4, TCP, UDP) using a modular OOP architecture.
- Developed a Deep Packet Inspection (DPI) engine to classify applications and identify HTTP, HTTPS, DNS, FTP, SMTP, and SSH traffic.
- Created a flow analysis engine to reconstruct sessions and generate traffic metrics like bandwidth, protocol distribution, and session duration.
- Implemented a threat detection framework using protocol validation and signature-based rules to flag suspicious activity, exposing analytics via Spring Boot REST APIs for real-time monitoring.

Borrvio – Peer-to-Peer Rental Marketplace | [Live Demo](#) | [GitHub](#)

April 2026

React.js | Node.js | Express.js | MongoDB | JWT | Razorpay | Cloudinary | REST APIs | Vercel | Render

- Built a full-stack rental marketplace with a complete booking lifecycle and real-time availability management.
- Implemented secure JWT-based authentication and role-based access control (RBAC), allowing users to switch between Owner and Renter roles within a single account.
- Designed booking conflict detection logic to prevent overlapping reservations and integrated the Razorpay payment gateway with secure payment verification for rental fees and deposits.
- Built automated PDF rental agreement generation with Trust Score computation, integrated Cloudinary for images, and deployed via Vercel, Render, and MongoDB Atlas.

EDUCATION

Master of Computer Applications (MCA)

2024 - 2026

Dr. D. Y. Patil School of MCA, Pune (SPPU) | CGPA: 8.66

Bachelor of Vocation (Software Development)

2021 - 2024

Dhote Bandhu Science College, Gondia (RTMNU) | CGPA: 9.31

CERTIFICATIONS

- Software Engineer Role Certification** - HackerRank August 2026
- TCS iON Career Edge – Young Professional** - TCS iON October 2023
- Introduction to SQL** - Sololearn June 2025
- AWS Basics – Crash Course** - KodeKloud September 2025
- Git** - PrepInsta August 2023
- HTML5 Nanodegree Certification** - PrepInsta August 2023
- PHP and MySQL Training** - Spoken Tutorial Project, IIT Bombay May 2023
